* RESENDING EMAIL YOU HAVEN'T RECEIVED BELOW *

Now that you know who you are dealing with, U.S. Military, I wanted to (re)send this over. Because, you see, well Quantum. Please interrupt your pre-Christmas festivities this great December 21 day of rebirth for us, and destruction for many others, and prepare for what is ahead for you in 2021.

* ADDING 2 NEW PEOPLE *

[REDACTED]
Who is complicit in crimes and has been expecting this email for 4 years since I warned him in October 2016. And because when Japan unifies under common law, well I kind of think they'd also like to know this story too. This isn't U.S. only.

[REDACTED]
Sometimes those perceived to be the highest have to fall the hardest for the world to learn. You realize how much activity is tied to you and YC? That is already captured by Us? We put you back there last year for good reason. Good job with the treasonous acts abetting criminals and paying

people to do harm to me (ALL will come out in a military court). Treason against the United States, against a United States patriot, and doing it through Poland? Well, sorry. That too will be a part of the crimes you've committed against the U.S. Constitution, which next Spring will protect the people of the entire world.

Because, although you can't see it, by next April you will see the world become free from tyranny when NESARA/GESARA is launched. And some of you may not watch from your couch. Military tribunals start in January.

Hey [REDACTED],

Thanks. I was going to take it a bit further with you, but I think you could be a key asset. And I need to use my bullets for smarter people, you're just a dumb worthless fuck.

You may not see this because you're so fucking evil but that's not my point, it's that you're stupid. Cc'ed and Bcc'ed on this email are military personnel running new hypergraph protocols for internet integrity. They see everything you dumb fucking cunt.

Attached are the emails you changed on Google Servers and on my account original which (We) recovered and I attach here as part of a criminal investigation.

What I would suggest [REDACTED] is this, to be cooperative as this unfolds:

- change your gmail account(s) passwords and add 2 factor
- backup locally and start keeping good records in between supporting baby-fuckers
- decide if you want to live in prison when maritime law hits or be with your family
- begin the process of seeing if you can add value when you're contacted by the CIA Red Team folks to go up the ladder and trap some important folks. Think about that now in between your satanic mouth foaming.

The last is most important for your future. You're one of the few non-tech people who is highly compromised and did illegal deals with [REDACTED]. He's the most compromised low-level person.

We're going after the really high level people in the Silicon Valley. Not wanna be's like [REDACTED] and [REDACTED].

If you need anything else or have leads you want me to pass on to the folks in the military in charge under the President, you can send them to [REDACTED]

Again, you really are a stupid version of the worthless motherfuckers I'm dealing with. Catching you only took a few dozen emails, some payments and no calls.

Do remember that the hypergraph blockchain protocols in place include the quantum financial system. So keep the \$100, but I used that as a time stamped trap to catch you. The Zelle payment. Rectify that with the emails I'm attaching here. My God you're fucking dumb. Where are the other payments? We'll find them all.

So, good luck in the investigations. Spend the next few weeks thinking quietly to yourself about who else you can bring in as trades for your own future wellbeing. Epstein was pretty important in that way.

Btw - what's the chance your laser guy from CA is from the 516? Get your shit together if you're gonna help us. (Our) quantum technology are 3,000,000,000x more sophisticated then the occult Illuminati shit you did with [REDACTED] in June 2020 to change your phone number to some laser parlor.

[REDACTED]:

Copying [REDACTED] who is the most "fakely wholesome" appearing criminal here and is deathly afraid of shame and public accountability.

[REDACTED], in addition to you being a worthless idiot and bad investor, I do want you to know that if I see you before this is resolved I will put my fist through your fucking face just like I did to [REDACTED].

You know, [REDACTED] is just dumb and emotionally unintelligable, but it's twisted fucks like you that fake your whole entire life that I enjoy most giving punishment to. See attachments of what will entrap you. Time does evolve quickly sometimes, doesn't it.

[REDACTED]:

Copying [REDACTED], who, well, is just a fucking idiot. Who sent me some threatening fucktard note in December about the NYTimes, and now must face a full subpoena for all email records of what he did behind my back leading up to this.

[REDACTED]:

[REDACTED] when you get your left hand out of your pussy please call your occult team member [REDACTED] on Telegram and tell him what the fuck happened. You are literally brain dead and I could do your job better (see contracts).

The FBI and CIA Already clamped his entire fucking organization. I want to check off the things I did in the attached:

- send threatening emails: yes
- disclose this publicly: yes
- break confidentiality: yes
- violate NDAs: yes

[REDACTED]:

Copying [REDACTED] who is a sick twisted excuse for an actor and who got herself in deep shit badly with criminals [REDACTED] and [REDACTED]. And because I think she'll struggle the most and cause the most uncorked leaks when this shit gets started, since she's a dumb devil who can't do spreadsheets while following orders from other child-molesting devils.

[REDACTED]:

I'm wearing my hat Josh. And I have all the original texts too on backups. As does the Hypergraph ledger. Checkmate. Easy tell.

[REDACTED]:

Bottom feeder. I have proof of the BVP emails. I have proof of your emails to me before. I have timestamps. And then you blocked my phone? Fucking coward. But I'll attach this pref difference for you, since I can assure you there will be pain for you in this. A lot.

[REDACTED]:

Who will end up playing a role here, as he has, and will be documented for all to see. Attached are first name communications over the years. At end, I will link back to you, but with that out the way... it's time for context:

WHAT THIS EMAIL IS ABOUT:

As I have documented elsewhere, my termination illegally at the company in addition to acts that are unthinkable criminal which occurred by those supporting them, mean I am changing the strategy.

Because many of your Silicon Valley criminal ring accomplices already attempted to use your looking glass shit with [REDACTED] and [REDACTED] from [REDACTED] I'll let you go back and talk to them in 2020 to try to fix this shit. So go on a spree with all your devices finding them and trying to correlate your faked documentation – and don't download any fucking child porn in the meantime because that shit's being tracked.

When you go through the attachments here, do you really don't think (We) don't have mountains of other timestamps with your sick twisted occult behavior? I mean come on. I even have [REDACTED] posting as a fake laser parlor person in June 2020. [REDACTED], people from CA don't have 516 numbers okay you untrainable criminal moron.

This shit is going public. All of it. So follow the rules:

DECLASS – NOW

1. Below roughly is what I would recommend when this email catches up with you. Attached are deliberate leaks of confidential info and contracts that violate terms of Estimote deals, including the deal I signed with Google. If you didn't understand yet, I am running shit. I started on this long, long ago. Decades ago. The traps I've set are simply momentous.
2. I'm copying some other random people just to directly violate the NDAs further and to scorn the threatening fake letter that [REDACTED] both sent me **AND**, forged my signatures on to eject me out of Estimote. You'll have to track down who they are because now the information is leaked. I wonder who they are. Again, this is **SERIOUS**. I was terminated and left to die in a hospital and meanwhile you all tried to reinforce that by lying that you knew. My health insurance was terminated! You worthless sick fucking people. I will attach that proof in upcoming declass emails. Which add fuel to the criminal (non-common law) proceedings which will come next. **NO MERCY**.

3. Attached are a bunch of records on Estimote and emails and contracts. I have all records. And so do (We). Remember, there are a number of poison pills set which track what's next. So plan carefully. And thanks for firing me.
4. And now I have the fucking evidence to tell that story. Which happened to coincide "coincidentally" with me blogging for the last decade and setting fucking traps for weak pussy criminals.
5. As someone who has been in tune with truth and law for decades, I don't usually get involved too heavily in who the next President is. What I work on is finding evidence that can be useful and being genius level at putting things together. So that's what role I will play here. What has occurred violates U.S. Constitutional laws, and will be relevant for pursuing crimes against humanity for the people who like fucking and killing children and babies. And that shit's about to come out soon. It will be so multidimensional that the ways we caught the criminals will be told for all eternity.

So fucking **get ready**. The non-game is just starting. And when it ends this entire email will be online for everyone to read. So if you have any questions, maybe track down the folks copied here. Or contact your President with a little inquiry in to where and how I'm gonna pull my fucking gun out next. It could be loaded with bullets like this or it could include real silver bullets that will go right through the fucking child molester's skulls.

And [REDACTED], pull your blood tainted anal beads out of your fucking vagina long enough to get on this declass.

Attachments:

- Capital One Contract
- AstraZeneca PO
- Google Contract
- Amazon emails
- Unauthorized to BoD Investment from Espey Capital in British Virgin Islands
- Fraudulent [REDACTED] paperwork
- Board changes
- State Street MSA
- Bunch of other random stuff

Here's what to possibly expect next if we don't get the lawsuit to Estimote and the burning down of this thing fast:

- Adding Apple to threads publicly
- Adding Amazon to threads publicly
- Adding Nike to threads publicly

I have way more data than I am letting on, as do (We).

Ask yourself: is this guy crazy, or is he in control?

Did you all think you were gonna win with your occult backwards yesterday time-shifting technology in shit like email and iCloud. Fuck me.

(We) have pretty good technology too. And it's not from fucking 2005. It's a fucking hypergraph ledger recording **EVERYTHING ON THE METANET** which has been happening and which twisted (dumb) people don't fucking know about. Imagine that?

WE ARE TRACKING EVERYTHING - WAKE UP

And it will be used in a fucking maritime law court of justice. The same kind that Josh knows about it where his former pal [REDACTED] got tried in - Guantanamo Bay (see VIDEO below)

Now that we've established that, I am pushing for the lawsuits. **HARD**. Because I have many more people I will be adding to emails if it isn't happening, people at the world's premier tech companies. What if next time it gets even bigger? What is [REDACTED] gonna do then, who is he gonna call? He didn't literally do one fucking thing while on our Board except embezzle and lie.

As you know; the greatest things ever are happening right now. A Great Awakening. And it's not among the people here.

A New New World Order. One that allows People to not be afraid of the Truth.

Did I fool the Valley I was riding in their image-sensing car, using their cutie digital tools' Clubhouse and Chalk? Yes I did. The whole disclosure is happening with or without you. As you know [REDACTED] it's already been done. So tell [REDACTED] to take her Vitamin D.

Here is where we go from here:

I get responses to this email chain or more and more contact(s) + contract(s) get added. Each time from a different server.

It's all live on Quantum and upcoming revelations will be earth shattering. Absolutely earth-shattering. I am not talking about my case, I am talking about the world's and public shaming of you.

Oh and [REDACTED]. Did you really think I was so stupid for sending you the \$100 payment first? Good luck trying to erase that from the banks. Because when they knock on your door, that timestamp was running on QFS / NESARA / GESARA (let me Google that for ya)

You know what, can you see how I didn't even bother to copy your pals in crime [REDACTED] and [REDACTED] whom are already your stupid chosen fall guys in the past for these crimes? Correct, because then you'd have to **FORWARD** the email on to them. Choose wisely.

[REDACTED];

If you're upset these swear words were directed to you, that's fine, you're right that we have fewer communications over the years (attached). But get your shit together on the lawsuits fast. So I can move to the next stages.

Copying [REDACTED] because I want him to be alerted **NOT** to do anything to my assets which are all backed which will compromise the criminal investigation. [REDACTED] has the choice to sue for adding this Google PO and contract and breaching confidentiality - or not.

If he does, then Estimote and its Board deal with fast fallout. And [REDACTED] has to forward this communication to lawyers and others. If he does sue, he'll also find out that liability is quite different than anything normal is also twisted since I am the only one in history (ever - really) to sign a contract with Google with capped indemnification liabilities. If he does not sue, then at least it's a distraction from things and clearly the Estimote deployment is burned down to the ground now that I have been ejected out of the company illegally. This effectively makes Estimote unfundable ever again and a bigger declass public story than anything I can remember in SV; and also kills the Google deal and **ALL** COVID deployment deals.

If he stalls, then a lot more declass starts coming until something breaks.

And I would caution you against discussing me with Kris Jensen or with my ex-girlfriend's mother, as all records on that have been preserved, especially in and around March 2017. And if I find out something happened that put my family in harm's way, the punishment will be 1,000x greater than what I am about to unleash. Timelines are relevant here. As I know much more at this point than you think.

BECAUSE HERE IS WHAT TO EXPECT NEXT:

[Global Banning of Common-Law. Live Broadcast 8th March 2021](#)

Maritime law is coming, and the selling and owning of humans and human souls is over. There is factual evidence on the methods of operation for how law and legal proceedings will work next.

I do encourage you to watch the video and understand how common laws are going away. So [REDACTED], quit fiddling your pussy and call [REDACTED] and who has so much info that will incriminate you, that when he deletes it, we'll find it on the Quantum system that this great gentleman [REDACTED] has made very clear in the video above.

<HINT>: Biden is not your current President. The mask malfunctions on Biden are getting worse each day. On purpose. This will end badly for [REDACTED] who is posing with a fucking clone on Facebook.

The dude playing Biden ain't Biden. Real Biden was an evil sick angry man who abused children including his own children. That's an actor with a fucking mask. We've been over this a thousand times. It's never going to change. Biden is shot, 2019 firing squad.

Before getting to helping below, and regardless of the connotation of the swear words here, people who read later will take this email as they may. Because the direct threat from (Us) is very real. The world deserves to hear this story—about how the people here and the Estimote Board tried to kill [REDACTED] and remove him from the company, during the time of a fake pandemic.

Buckle up, because the ride is going to get very very very rocky when you attempt to conduct crimes against humanity. Which is what happened to me, and to many others.

I am just lucky to be here, to help, and set the traps which can help free knowledge.

So I am going to lastly end this on a positive note. In between catching criminals I have been doing, to the best of my ability, some other things. One of them is for our dear people and Children of the world. Because, when I publish this later and people need context, they can see the timeline. The pictures. The photos. I've been donating to people in Nepal and helping children in Nepal. And people like Vipin Sangwan, and the little girl in various photos he's helping, well they deserve the truth. They deserve quite simply, to be free. Because I'll meld the timelines later in the DECLASS emails, I am going to - not - to paste the link and info to the charity here, but you can find his beautiful work on my Twitter timeline for a long time—right alongside the tragic screenshots I will attach next time from [REDACTED].

As someone who didn't seem to Bite in the past, you people all had the wrong fucking read on me. War crimes and 1776—globally and the fall of tyrants. That is what (We) do.

Look, if you don't understand the U.S. Military is running this whole quantum and anti-crime operation and I am working with them, watch this fucking next chapter in the movie coming out now. So if things don't work out to my schedule things will get uglier.

[REDACTED], thanks again. You're just a low-level dumb baby fucking monster. But seriously did you ever think you'd be copied on an email to the CEO of Google. Haha yeah. Same goes for satanic [REDACTED]. But you twisted low level fucks have lots of insights along with [REDACTED] about how far in time back we can go with the blockchain system (We're) running to catch real perpetrators. All is time-stamped. Justice is coming. Because I'm burning the whole fucking thing down.

Best Wishes,

[REDACTED]

How are you doing?

I've had several conversations with [REDACTED] @ Estimote, as well as [REDACTED], and I seem to have things straightened out with them for moving forward re: the space at least.

But, based on talking with them, I'm concerned about YOU – how are you? Where are you? What's going on? Since I've gotten things worked out as far as the lease for 19th Street with them, I have \$100 of yours that really should go back to you, and I'm glad to do that, of course. But mainly, I want to know that you're OK and hear that from you. So.....reply to this email, text me, call me, let me know when is good to talk – whatever works best for you. Just do let me know you're OK.....
